Procedures for reactivating your trial version of REM*Rate*

1) Startup REM Rate
2) Hit Register Button after you see pop-up screen telling you that the trial version has expired
3) When next screen comes up to register via the internet DON'T HIT ANY BUTTONS OR FILL-IN ANY FIELDS….you ONLY hit <Shift>, <Alt>, and <8> keys simultaneously.
4) Another pop-up screen should appear asking "Do you want to un-register REM Rate?" You hit the Yes button and then close down REM Rate.
5) After REM Rate has shut down completely hit your Windows Start Button.
6) Then hit Search Button
7) Then when it asks you "What do you want to search for?" you click on All files and folders
8) Then type in REM.ini and click search at the bottom
9) When you see that search has found REM.ini you can hit the STOP button and then delete REM.ini file by right-clicking on the REM.ini file and then select Delete in the drop-down menu that pops-up.
10) Restart REM Rate and get to work!
